Dear Chairman Cole and Ranking Member DeLauro:

On behalf of the Student Aid Alliance (SAA), we write to express our deep concerns with the drastic cuts proposed in the fiscal year (FY) 2025 Labor, Health and Human Services, Education, and Related Agencies Subcommittee funding bill. While we are still waiting to learn of the funding levels for each student aid program, we strongly oppose the reported combined $1.07 billion cut, equating to a 50% reduction in funding, to both the Federal Work-Study (FWS) program and the Federal Supplemental Educational Opportunity Grant (FSEOG) program.¹

The FWS and FSEOG programs together provide access to a postsecondary education for over 2 million low-income students nationwide.² The FWS program provides over $1.2 billion in federal and institutional funding. This program supports part-time employment for more than 600,000 financially needy undergraduate and graduate students to help them pay their college costs while gaining valuable work experience.³ In addition, the FSEOG program serves students with the most need by awarding them additional grant funds, in amounts up to $4,000, to help them access and complete their postsecondary education. Over 1.6 million low-income students participate in this program, and participating colleges and universities match federal dollars to make more than $1.2 billion in grant aid available. Cutting funding for the FWS and FSEOG programs by 50% would cause serious harm to the ability of eligible students to access the appropriate level of funding needed to complete their degrees.

We understand the fiscal constraints imposed by the statutory spending caps in the Fiscal Responsibility Act (FRA). However, we believe it is imperative that Congress provides additional funding for non-defense discretionary programs beyond the statutory spending caps in the FRA, allowing for a higher allocation in education funding, as the FY 2025 process continues. Overall, this bill falls woefully short of what is in the best interest of students, and we strongly urge you to increase the funding levels for student aid during the full House Committee on Appropriations markup.

---

3 Ibid.
We appreciate that the Pell Grant maximum award level was not cut and the Pell Grant reserve is maintained. We are also thankful that the bill does not cut the Federal TRIO Programs or GEAR UP. However, we strongly believe that Congress must continue to increase funding for the Pell Grant program and the other federal student aid programs impacting low-income students. The Pell Grant program alone supports over 6 million students and serves as the cornerstone of federal financial student aid.4

As we have done before, we call on Congress to continue its bipartisan support of federal student aid programs. These programs play a vital role by providing a much-needed investment in our future leaders.

Thank you for your consideration of this request.

Sincerely,

SAA Steering Committee
